At the tender age of 18, Zen Benefiel experienced a profound near-death experience (NDE) that became the gateway to a lifetime of profound transformation and exploration. During this remarkable event, Zen found himself on the threshold between life and death, experiencing a profound shift in consciousness and an intimate connection with the divine. His story is profoundly poignant for our times.

Zen's NDE became the catalyst for his lifelong journey of self-discovery, exploring diverse spiritual traditions, engage in scientific research, and seek out wisdom teachings from ancient cultures. This transformative experience continues to shape his perspective, infusing his work as an author, leader, speaker, and podcast host with a profound sense of compassion, authenticity, and reverence for the mysteries of life and living as a spiritual being in physical form.

He is currently Operations Director for Live and Let Live Foundation and Global Peace Movement. Most recently he founded Planetary Citizens, a 509(a)(2) public charity.

"Zen feels like an emissary from the future, a time when many more people are at home with a wider scope of consciousness."

~ Dr. Robert Gilman—Founder, Context Institute

"As one of our premier Featured Contributors, Zen has from day one distinguished his creative contributions from so many via a knack for keen observation and what can best be described as 'radical curiosity.'"

~ Dennis Pitocco—Publisher, BIZCATALYST 360°

"Zen is a catalyst for transforming conversations; a connector for the leaders of social transformation. His ability to sink deep into himself and bring the treasures found to others in service. He is a bridge builder between science and spirituality to navigate complexity."

~ Mansi Kakkar—Regenerative Design Specialist

"Zen Benefiel, literally, takes us with him on his journey from drums to conundrums. His mind is facile as he weaves a narrative ranging from deep within the esoteric/ufology subculture to lessons of marriage, family, and business life."

~ Jeffrey Mishlove, PhD—Host, New Thinking Allowed (Stubbing My T.O.E. on Purpose)
